

Bearicuda Metal Storage Enclosure Sizing Chart

1. Measure the maximum height, width and depth of your can. When measuring your can be sure to measure the highest height, deepest depth and widest width to include can handles and wheels if applicable. Then add at least 1- 2" or more to comfortably fit the cans thru the door and the inside depth and height of the enclosure.

2. Then reference our metal enclosure sizing chart dimensions below to ensure you have selected the best size configuration for your cans.

Suggested configurations: Measure your cans to select the best configuration.
Click on the product SKU number to go to that product page.

Style	SKU	Exterior Dim.	Door Dim.	Description
Telluride Bear-Resistant Metal Trash Enclosure				
	ENC501	25.375" W x 25" D x 52.5"H	20.625"W x 31"H	1 door, no panels
